1. Calculated as the sum of revenues from contracts with customers relating to new yachts (recognised over time with the cost-to-cost method) net of commissions. In accordance with IFRS standards, revenue calculation includes the difference between the value contractually attributed to the pre-owned boats traded in and their relative fair value
2. Increases in property, plant and equipment and intangible assets with a finite useful life, net of the carrying amount of related disposals
3. Calculated in accordance with ESMA document 32-382-1138, 4 March 2021. A positive figure indicates a net cash position. IFRS 16 liabilities accounting for €9.4m as of 30 September 2023 and €7.8m as of 31 December 2022

Sustainable top line growth continues as planned

Net Revenues New Yachts at €626m in the 9M 2023, +15.1% YoY;
 €237m in Q3 2023, +19.3% YoY

- **Sound 9M performance across all divisions:** Yacht +9.6% (+24.6% in Q3), Superyacht +24.0% (+8.6% in Q3), Bluegame +28.3% (+19.6% in Q3)
- **Strong YoY revenues increase in Europe (+40.6%) and MEA (+130%),** with Europe representing around 70% of the revenue mix and MEA reaching approx. 9% in the 9M 2023

Breakdown by geography

Net Revenues New Yachts are calculated as the sum of revenues from contracts with customers relating to new yachts (recognised over time with the cost-to-cost method) net of commissions. In accordance with IFRS standards, revenue calculation includes the difference between the value contractually attributed to the pre-owned boats traded in and their relative fair value.

Backlog persistently at record levels

Solid order intake in Q3, notwithstanding long waiting time for new orders

- Significant contribution of **€253m** from Q3 (vs **€249m** in Q3 2022) to a **9M 2023 order intake of approx. €604m**
- Three **boat shows in September, with strong interest** from European and American clients
- Newly presented **SX100** model and the game-changing **BGM line**, effectively opening up a new market segment for luxury multi-hulls, very well welcomed from the market

Backlog is calculated as the sum of the value of all orders and sales contracts signed with customers or brand representatives relating to yachts for delivery or delivered in the current year or for delivery in subsequent years. For each year, the value of the orders and contracts included in the backlog refers to the relative share of the residual value from 1 January of the current year until the delivery date. Backlog relating to yachts delivered during the year is conventionally cleared on 31 December.

High quality of backlog, not just size

91% sold to final clients, with sold deliveries up to 2027

Backlog by division /

deliveries

Margin expansion consistent with strategic focus

EBITDA margin expansion at 18.2% and EBIT margin at 14.6%, reflecting brand equity and operational efficiency

- Savvy pricing strategy paired with effective cost planning and on-time delivery
- Substantial control over margins at all levels, evidence of:
 - backlog fed with high-quality orders and providing extensive visibility
 - proven ability to translate cost inflation to final customer
 - reliability of operational footprint limiting the impact of supply-chain disruptions
- Rising net financial income contribution

Targeted Capex strategy, keeping a well-invested asset base

9M Organic Net capex at €26.0m, incidence on Net Revenues New Yachts decreasing to 4.2%

- Overall net investments at €43.1m, of which €26.0m Organic Capex and €17.1m impact from acquisitions (mainly Duerre)
- 85% of Organic Capex are expansionary:
 - €8.9m for new product development
 - €13.3m for new industrial capacity
- Recurring Capex at €2.0m, 0.3% of Net Revenues New Yachts

9M Capex evolution / (€m)

Organic Capex YoY comparison / (bar: €m and % of the total; line: % on Net Revenues New Yachts)

Steady Net Cash increase, providing optionality value

Steady cash generation reflecting high margins, on-time deliveries and favourable Working Capital dynamics, confirming the soundness of our business model

- **Net Working Capital persistently negative:**
 - Backlog and order intake mostly **backed by final clients (91%)**, thus more favourable milestone cash-in profile
 - Disciplined inventory management, and **limited amount of finished products inventory (€19.5m)**
- **€145.6m Net Cash, with €244.3m of available cash and equivalents**, after €22.9m dividend payment, €41.3m Capex and M&A consolidation effect, as well as €3.1m of stock buyback in the 9M 2023

Undisputed winner through the cycle in luxury yachting

Value of Production (rebased to 100)

SANLORENZO

2006–2022 growth: +621%, more than >7x²

Above market growth paired with **distinctive cycle-insulated business model**, even during the Covid-19 pandemic, also thanks to:

- Large proportion of direct sales to **final customers**, with limited “sell-in/sell-out” risk from dealers and more **favourable working capital** dynamics
- **Flexible cost structure** due to production activities carried out by third-party contractors

Ferretti Group 2006–2022 growth: +45%^{4,5}

Luxury Yachts at the top end of the Luxury pyramid

Luxury Yachts above 24 meters cater exclusively UHNWI clients.
Sanlorenzo caters to *connoisseurs*, experienced yachtsmen

- Sanlorenzo’s Luxury yachts can share with the most renowned brands in luxury some common features
 - Scarcity of the offer
 - Top-end positioning within the reference market
 - Pivotal role of customization and “made-to-measure”
 - Uniqueness of the offer, combining heritage and innovation in timeless pieces, enjoying a contemporary taste
 - Selected distribution approach

Expanding addressable client base, in terms of size and typology

Constant global increase in UHNWIs, geographic opportunities and the ability to meet new customer needs such as “Work-from-Yacht”, underpin the yachting market growth

of UHNWIs¹

Individuals with net worth above \$50m

Average age of Sanlorenzo Superyacht buyers

Average days spent on board

Based on discussions with clients

- Many more lifestyles are represented in today's superyachts, attracting new UHNWIs to the roster of yacht owners¹
- Number of Chinese UHNWIs expected to almost double in the next 5 years²
- 2021-22 charters' boom saw many clients approach yachting for the first time
- New technologies for connectivity, significantly extending time on board

Supply growth has been significant but overall constrained

Robust supply growth has still not matched the growth rate of the addressable customer base

of yachts >24m built each year¹

- Largely untapped client base, penetration rate below 3%
- Overall scarcity effect in the >24mt industry segment

Notice to recipient

This presentation is being provided to you solely for your information and it may not be reproduced or redistributed to any other person.

The information contained in this presentation, which has been prepared by Sanlorenzo S.p.A. (the “Company”) and its consolidated subsidiaries (together, the “Group”) and it is under the responsibility of the Company, does not constitute or form part of any offer to sell or issue or invitation to purchase or subscribe for, or any solicitation of any offer to purchase or subscribe for, any securities of the Company, nor shall it or any part of it nor the fact of its distribution form the basis of, or be relied on in connection with, any contract or investment decision. The information and opinions contained in this document are provided as at the date of the presentation and are subject to change. Neither the Company nor the Group are under any obligation to update or keep current the information contained in this presentation.

The director in charge of preparing the corporate accounting documents, Attilio Bruzzese, declares that pursuant to and for the purposes of article 154-bis, paragraph 2 of Italian Legislative Decree no. 58 of 1998, the accounting information contained in this document corresponds to company documents, ledgers and accounting records.

Forward-Looking Statements: this document may include projections and other “forward-looking” statements within the meaning of applicable securities laws. In particular, all statements that address expectations or projections about the future, including statements about operating performance, market position, industry trends, general economic conditions, expected expenditures, cost-savings, synergies and financial results, are forward-looking statements. Consequently, any statements contained herein that are not statements of historical fact are forward-looking statements. Forward-looking statements are based on assumptions and current expectations and involve a number of known and unknown risks, uncertainties and other factors that could cause actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. Accordingly, actual events or results or actual performance of the Company or the Group may differ significantly, positively or negatively, from those reflected or contemplated in such forward-looking statements made herein. The Group expressly disclaims any duty, undertaking or obligation to update publicly or release any revisions to any of the information, opinions or forward looking statements contained in this document to reflect any events or circumstances occurring after the date of the presentation of this document. No representation or warranty is made as to the achievement or reasonableness of, and no reliance should be placed on, such forward-looking statements.

Any reference to past performance or trends or activities of the Company shall not be taken as a representation or indication that such performance, trend or activity will continue in the future.

This presentation contains alternative performance indicators that are not recognized by IFRS. Different companies and analysts may calculate these non-IFRS measures differently, so making comparisons among companies on this basis should be done very carefully. These non-IFRS measures have limitations as analytical tools, are not measures of performance or financial condition under IFRS and should not be considered in isolation or construed as substitutes for operating profit or net profit as an indicator of our operations in accordance with IFRS.
